SECTION 1: ABOUT FRANKLIN TEMPLETON

Franklin Templeton is part of Franklin Resources, Inc., a global investment management organisation operating, together with its subsidiaries, as Franklin Templeton. Franklin Resources, Inc. is listed on the New York Stock Exchange (NYSE:BEN). We are the Responsible Entity and solely responsible for the management of the Fund, which includes day-to-day administration. We hold AFSL 240827.

WHO IS CLEARBRIDGE

ClearBridge is a specialist investment manager engaged by us to manage investments in global listed infrastructure securities for the Fund. ClearBridge holds AFSL 307727.

ClearBridge is dedicated to identifying and investing in the best infrastructure assets in the global listed equity market with the goal to deliver strong absolute returns over an investment cycle. Understanding and managing the relationship between risk and return as it applies to infrastructure assets is at the heart of ClearBridge's bottom-up investment process.

Please note: You should read the important information about the Funds before making a decision. Go to the "About this Additional Information Booklet" section of the AIB which is available directly at www.clearbridgeinvestments.com.au. This information may change between the time you read the PDS, the AIB and the day when you invest in the Fund.

SECTION 2: HOW THE FUND WORKS

The Fund is an unlisted registered managed investment scheme, which means that your money is pooled together with other investors' money.

The Fund is governed by a Constitution. The terms and conditions of the Constitution are binding on each unitholder (and all persons claiming through them).

A unitholder's interest in the Fund is represented by "units". A unitholder has an interest in the assets of the Fund as a whole, subject to the liabilities of the Fund.

A unitholder does not have an interest in any particular asset of the Fund. Investors can acquire interests in the Fund by applying for units (via an **Application Form**) and can redeem from the Fund by making a withdrawal request in relation to the units they hold (via a **Redemption Form**). Please be aware that we have the absolute discretion to accept or reject any application.

The price at which units are acquired (**Application Price**) or redeemed (**Redemption Price**) is determined in accordance with the Constitution. The Application Price and the Redemption Price on a **Business Day** (each day that is not a Saturday, a Sunday, a public holiday or bank holiday in New South Wales) are, in general terms equal to the product of the Net Asset Value (**NAV**) of the Fund divided by the number of units on issue and:

- for the Application Price, adjusted up for transaction costs (called the **buy spread**); and
- for the Redemption Price, adjusted down for transaction costs (called the **sell spread**).

The NAV of the Fund is the value of the assets less accrued expenses and other liabilities.

The NAV, Application Price and the Redemption Price are generally determined each Business Day and updated on the ClearBridge website. Please see the AIB for further information on transaction costs.

ACQUIRING UNITS

An investor can acquire units by making an application for units. An application for units is made by lodging either a correctly completed Application Form or by making an application through the mFund Settlement Service (**mFund**) by placing a buy order for units with your licensed broker (see below).

Application Forms need to be received by Link Market Services Limited (**Link**), who provide us with transfer agency and registry services, as well as appropriate funding provided to the Fund's nominated bank account by 4:00pm on a Business Day to receive that day's Application Price. Application Forms received after this time will usually be processed at the Application Price on the following Business Day.

Refer to Section 8 "How to Apply" for more information.

You can access information about your investment in the Fund including account balances, investment details, transaction histories, investor statements and annual reports via the ClearBridge Investor Portal at www.clearbridgeinvestments.com.au.

You can register for access to the ClearBridge Investor Portal which is a secure website via www.clearbridgeinvestments.com.au. Please click on ClearBridge Investor Portal at the top of the page. Alternatively, you can contact the ClearBridge Client Service Team via phone or email.

A data feed containing investor holdings and transactions is available to an investor's adviser via Xplan. To activate the data feed, please contact the ClearBridge Client Service Team via phone or email.

Change of Details

Should an investor wish to effect a change of details, they can complete a Change of Details Form. Please see the AIB for further information.

MFUND APPLICATIONS

Funds on mFund are not traded on an exchange and investors will not trade units with other investors on the market.

If you invest via mFund, your broker will complete your identification requirements and any required Anti-Money Laundering and Counter-Terrorism Financing paperwork.

To acquire or dispose of units through mFund, orders should be placed with your licensed broker. The Australian Securities Exchange (**ASX**) settlement cut-off time is 11:30am on a Business Day.

Please note, a buy or sell order (**order**) received prior to 11:00am on a Business Day by your licensed broker will likely be given same date value but this is not guaranteed.

Any order or instruction received prior to the cut-off time will generally be processed at the unit price for that Business Day. Where an order or instruction is received after the cut-off time, it will generally be processed at the unit price for the following Business Day.

Application monies will be sent to us via the ASX electronic settlement system (**CHESS**). Your confirmation statement will be sent when your instruction is processed or the transaction settles through CHESS. Please contact your broker or the ClearBridge Client Service Team if you have not received your statement.

Change of Details

Please contact your broker to effect any changes of details. The broker will transmit the updated information via CHESS or in certain situations to us, where necessary.

CLASSES OF UNITS

The Responsible Entity has the ability to issue further classes of units under separate PDSs or other offer documents from time to time. Please read the AIB for further information in respect of classes of units.

DISPOSAL OF UNITS

A unitholder can dispose of units by making a redemption from the Fund. A redemption is made by lodging a correctly completed Redemption Form or by placing a sell order for units via mFund with your licensed broker (as above).

Redemption requests need to be received by Link by 4:00pm on a Business Day to receive that day's Redemption Price. Redemption requests received after this time will usually be processed at the Redemption Price on the following Business Day.

Redemptions are typically paid within 7 Business Days, although the Constitution allows us up to 60 Business Days or longer in certain circumstances.

We reserve the right to delay redemptions if we consider a circumstance outside our control impacts our ability to properly or fairly calculate a unit price or if we receive a large redemption request. In these circumstances, investors may not be able to withdraw funds within the usual period upon request. If we delay redemptions, the Redemption Price is the next calculated Redemption Price. Redemption proceeds will be paid to an investor's nominated bank account.

The nominated bank account must be in the name of the investor(s). Withdrawal and income proceeds will not be paid to third parties.

It is our intention to manage the Fund so that it is "liquid" for the purposes of the *Corporations Act 2001* (Cth) (**Corporations Act**). If the Fund is not sufficiently liquid, then investors will only be permitted to withdraw if we make a withdrawal offer to all investors in accordance with the Constitution and the Corporations Act.

In some circumstances we may also compulsorily redeem your units, for example, where we suspect that a law prohibits you from being an investor in the Fund.

DISTRIBUTIONS

Distributions are paid at least annually or more frequently at our discretion. We intend to distribute semi-annually by the 10th Business Day of January and July each year. The Constitution for the Fund allows us to accumulate income as the Fund is an Attribution Managed Investment Trust (AMIT).

Your distribution is calculated by dividing the total Fund distribution by the total number of units on issue at the distribution date and multiplying the result by the number of units held by you on that date. In each financial year, we intend to distribute the full amount of taxable income from the Fund. You may elect to have distributions paid to your bank account or reinvested in further units in the Fund.

IDPS, MASTER TRUST AND WRAP ACCOUNT INVESTORS

Investors who invest through an investor directed portfolio service (IDPS), such as a master trust or wrap account, may be subject to different conditions with regard to applications and withdrawals and will not have the same rights as a direct investor in the Fund.

To make an investment through an IDPS, complete the relevant IDPS Application Form. Do not complete the ClearBridge Application Form.

For IDPS investors, the minimum initial and additional investment amounts shall be those specified by the IDPS. If your initial investment was made through an IDPS operator, any additional investment should also be made through them.

If you invest through an IDPS, you can only withdraw through the operator of that service.

Please note: You should read the important information about how the Fund works before making a decision. Go to the "How the Funds work" section of the AIB which is available directly at www.clearbridgeinvestments.com.au. This information may change between the time you read the PDS, the AIB and the day when you invest in the Fund.

SECTION 3: BENEFITS OF INVESTING IN THE FUND

SIGNIFICANT FEATURES

The Fund's investment objective is to provide investors with exposure to the growth of emerging markets infrastructure and to outperform the benchmark, being an accumulation index comprised of the S&P Emerging Markets Infrastructure Index.

The Fund is actively managed and portfolio construction is not constrained by the Benchmark. The Benchmark (see Section 5 of this PDS) is used for performance comparison purposes only.

As a guideline, the Fund will usually hold between 25 and 60 different securities. The main investments of the Fund will include:

- Listed securities
- Securities not yet listed on a securities exchange but that are expected to be listed within 12 months of purchase
- Cash and cash equivalents such as other investment grade interest-bearing securities
- Derivatives (in the circumstances described in Section 5 "About the investment guidelines")

- Depository receipts or other such securities where the underlying securities are inaccessible or illiquid
- The Fund will aim to invest in securities that derive at least 50% of their earnings before interest, tax, depreciation and amortisation (EBITDA) from emerging markets assets.

SIGNIFICANT BENEFITS

An investment in the Fund has significant benefits including:

- Your money is managed by ClearBridge's investment professionals who have access to investment techniques, investment opportunities and markets that may not be accessible to all investors
- Generally, you can apply to withdraw your investment on any Business Day
- Fund managers can usually invest at a lower cost than individual investors
- The Fund aims but does not guarantee to generate dividends, interest, foreign tax credits and capital gains for investors.

SECTION 4: RISKS OF MANAGED INVESTMENT SCHEMES

All investments carry risk. Investment returns and the risks will differ between Funds as different investment strategies carry different levels of risk depending on the underlying mix of assets that make up the Fund. Investments in assets aimed to generate high long-term returns may carry high levels of short-term risk. Risk can be managed but cannot be completely eliminated.

When investing, it is important to understand that:

- The value of your investment may vary
- The level of your investment returns will vary and may differ from past returns
- The performance of the Fund or the return of capital is not guaranteed – this means you could receive back less than what you initially invested.

The appropriate level of risk for you will depend on your financial goals, age, investment timeframe, diversification and how comfortable you are with potential fluctuations in the value of your investment.

Please note: You should read the important information about investment risks before making a decision. Go to the "Risks of Managed Investments Schemes" section of the AIB which is available directly at www.clearbridgeinvestments.com.au. This information may change between the time you read the PDS, the AIB and the day when you invest in the Fund.

SECTION 5: HOW YOUR MONEY IS INVESTED

When making an investment decision you should consider the likely investment return, the risk and your own investment timeframe.

Description of the Fund	The Fund will hold a diverse range of infrastructure securities across a number of infrastructure sub-sectors such as gas, electricity and water utilities, renewables, toll-roads, airports, rail and communication infrastructure and across geographic regions within emerging markets.		
Investment objective	To provide investors with exposure to the growth of emerging markets infrastructure securities and to outperform the benchmark, being an accumulation index comprised of the S&P Emerging Markets Infrastructure Index.		
Asset classes and allocation ranges	The Fund's assets are typically invested within the following asset allocation ranges:		
	Asset allocation ranges	Asset class	Investment range
		Global listed infrastructure securities	80 – 100%
		Cash ¹	0 - 20%
	¹ The target of the Fund is to be fully invested, however, the Fund may have higher levels of cash where in ClearBridge's opinion, more attractive investment opportunities cannot be found.		
About the investment guidelines	The Fund will not borrow. ClearBridge may use options, futures or other derivatives to reduce risk or gain exposure to the market for the underlying physical investments. Derivatives are not used speculatively. ClearBridge will not use derivatives for the purpose of gearing the Fund. At certain times ClearBridge may adjust the currency positioning of the Fund utilising forward foreign exchange contracts or other derivative contracts. ClearBridge regularly monitors derivative positions to ensure that the Fund can meet all derivative contract obligations from the appropriate amounts of cash or physical assets held by the Fund.		
Risk level	The Responsible Entity considers the risk level of the Fund to be very high. The investment manager has risk control methodologies in place which aim to mitigate the overall level of risk.		
Minimum suggested investment timeframe	The Fund aims to outperform the Benchmark for investments held over the minimum suggested investment timeframe of 3-5 years. The Fund may suit investors with a long-term investment horizon whose investment objective is to achieve growth in the value of their investment and who are willing to accept an investment strategy involving a high level of volatility and risk in the management of their investment.		
Fund performance	You can find the latest Fund performance information at www.clearbridgeinvestments.com.au		
Changes to Fund details	Subject to law and the Fund's Constitution, we have the right to make changes to the Fund at any time and in some cases without giving prior notice. Changes may include closing the Fund to new investors, terminating the Fund or changing the Fund's investment objective, benchmark, asset classes, asset allocation ranges and investment strategy. If there is a material change, we will update this PDS and inform investors of the material change as required by law. If you are investing through an IDPS, information and reports on your investment in the Fund will be provided to you by the operator of that service, not by us.		
Labour, environmental, social or ethical considerations	As part of ClearBridge's bottom-up investment process, it also considers environmental, social and governance (ESG) factors as well as labour standards in determining whether to include, retain or exclude securities within the investment universe for each Fund. ClearBridge assesses ESG factors through a proprietary scorecard, using internal research supplemented by external specialist research providers. In proceeding, realising or retaining investments for the Fund, ClearBridge takes into account the expected return and performance of individual investments. ClearBridge is a signatory to the United Nations Principles for Responsible Investment and reports annually on the implementation of those principles. ClearBridge also supports the principles of the UN Global Compact and does not seek to invest in companies that violate those principles. ClearBridge's investment process also supports the Sustainable Development Goals (SDGs) by mapping issuers against each one of the SDGs as a proxy for determining a positive Environmental or Social contribution. Additional information in regard to the ESG considerations that are taken into account in the investment process is available in the Statement on Socially Responsible Investing section of the AIB.		

Please note: You should read the important information about the investment process and derivatives before making a decision. Go to the "How Your Money is Invested" section of the AIB which is available directly at www.clearbridgeinvestments.com.au. This information may change between the time you read the PDS, the AIB and the day when you invest in the Fund.

SECTION 6: FEES AND OTHER COSTS

The following warning is required by Australian law. Specific information about fees and costs relating to the Fund is available later in this section.

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask the ClearBridge Client Service Team or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the Australian Securities and Investments Commission (ASIC) website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

² The amount of the management fee may be negotiated. See "Wholesale Fee Arrangements".

WHOLESALE FEE ARRANGEMENTS

We may enter into individual fee arrangements with "Wholesale" investors (as defined in the Corporations Act) in accordance with applicable ASIC class order relief.

EXAMPLE OF ANNUAL FEES AND COSTS FOR THE FUND

This table gives an example of how the ongoing fees and costs for this product can affect your investment over a 1-year period. You should use this table to compare this product with other managed investment schemes.

Example – ClearBridge RARE Emerging Markets Fund		Balance of \$50,000* with a contribution of \$5,000 during year
Contribution fees	Nil	For every additional \$5,000 you put in, you will be charged \$0.
PLUS Management fees and costs	1.23% p.a.	And , for every \$50,000 you have in the Fund you will be charged or have deducted from your investment \$615.00 each year. ¹
PLUS Performance fees	Nil	And , you will be charged or have deducted from your investment \$0 in performance fees each year.
PLUS Transaction costs	0.003% p.a.	And , you will be charged or have deducted from your investment \$1.40 in transaction costs.
EQUALS Cost of Fund		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs in of \$647.22. ^{2*} What it costs you will depend on the fees you negotiate.

^{*} Additional fees may apply.

¹ You should note that this example assumes a constant investment balance of \$50,000 throughout the year. Management Fees and Costs will also be charged in relation to any additional contributions you make during the year and the amount you pay will depend on the proportion of the year during which the additional contributions are invested.

² The above example assumes the balance of \$50,000 was made at the beginning of the 1-year period and the additional contribution of \$5,000 was made 6 months later. This example does not take into account any movements in the investor's investment over the course of the year. Please note this is an example only as the actual investment balance of your holding will vary on a daily basis.

Note: This is an example. In practice, the actual investment balance of an investor will vary daily and the actual fees and expenses we charge are based on the value of the Fund. The indirect costs and other expenses component of Management Fees and Costs and transaction costs may also be based on estimates. As a result, the total fees and costs that you are charged may differ from the figures shown in the table.

^{*} Please note the minimum investment for the Fund is \$20,000 with a minimum additional investment of \$5,000.

ADVISER FEES

We do not pay fees to financial advisers. If you consult a financial adviser, you may incur additional fees from your financial adviser and should refer to your Statement of Advice for any fee details

ADDITIONAL EXPLANATION OF FEES AND COSTS

Subject to Clause 18.1(a) of the Fund's Constitution and law, the fees may be varied at any time at our absolute discretion, for reasons including changing economic conditions or changes in the law.

We will provide you with at least 30 days' notice of any proposed increase in fees. You may negotiate the fee if you are a wholesale investor.

Investors acquiring or disposing of an interest in the Fund through the mFund Settlement Service may incur different fees and costs from those payable when using a different process to acquire or dispose of the same interest.

Please note: You should read the important information about the fees and costs of investing in the Fund before making a

decision. Go to the "Fees and Other Costs" section of the AIB which is available directly at www.clearbridgeinvestments.com.au. This information may change between the time you read the PDS, the AIB and the day when you invest in the Fund.

SECTION 7: HOW MANAGED INVESTMENT SCHEMES ARE TAXED

Investing in a registered managed investment scheme and dealing with investments often has tax implications which can be complex and particular to your circumstances.

Registered managed investment schemes do not pay tax on behalf of investors. Investors are assessed on any income (including amounts that are reinvested) and capital gains or losses generated by their investment in a managed investment scheme. You will be provided with a distribution statement (known as an "AMMA statement") that sets out the taxable components of the Fund on which you may be assessed.

Investors are recommended to seek professional tax advice that takes account of your particular circumstances or personal objectives before you invest or deal with your investment.

COMMON REPORTING STANDARD

The OECD Common Reporting Standard for Automatic Exchange of Financial Account Information is a global standard for the collection, reporting and exchange of financial account information on foreign tax residents.

For further information refer to the "Common Reporting Standard" section in the AIB.

Please note: You should read the important information about how managed investment schemes are taxed before making a decision. Go to the "Important Tax Information" section of the AIB which is available directly at www.clearbridgeinvestments.com.au.
