

## Global Infrastructure Income Strategy

**Strategy Overview:** An income-oriented global listed infrastructure strategy suitable for investors seeking regular and stable income and capital growth over the long term. The strategy invests in a range of listed infrastructure securities spread across geographic regions in both the developed and emerging markets.

**Benchmark:** OECD G7 CPI +5.5% Index

**Comparison Index:** FTSE Global Core Infrastructure 50/50 Net Tax Index

**Strategy Inception:** 31 August 2016

**Strategy AUM:** \$10.5bn AUD

**Holdings Range:** 30-60<sup>1</sup>

**Objective:** Long-term inflation-linked capital growth over an economic cycle with a focus on reliable income<sup>3</sup>

### Investment Philosophy

By using a longer-term fundamental valuation approach when investing in listed markets, significant opportunities arise as listed markets misprice infrastructure assets in the short term

### Portfolio Management Team

- ▶ **Daniel Chu, CFA**  
Director, Portfolio Manager,  
18 years experience
- ▶ **Charles Hamieh**  
Managing Director, Portfolio

This material is not suitable for retail investors. The investment manager, ClearBridge Investments Limited (ABN 84 119 339 052; AFSL No. 307727) does not authorise the provision of this material to retail investors.

While this document has been prepared with all reasonable care, ClearBridge\* accepts no responsibility or liability for any errors, omissions or misstatements however caused.

This information is not personal advice. It has been prepared without taking account of individual objectives, financial situation or needs. Potential investors should seek independent advice as to the suitability of the Strategy to their investment needs.

Reference to shares in a particular company is not a recommendation to buy, sell or hold that stock. Forecasts are based upon internal research and projections. Actual results may materially differ.

\*ClearBridge Investments consists of ClearBridge Investments Limited (AFSL 307727) (and its subsidiary); ClearBridge Investments, LLC; ClearBridge Investment Management Limited; the

ClearBridge Australian Equities Investment team (a division of Franklin Templeton Australia Limited); and a part of Franklin Templeton Investments Corp. All entities are wholly, indirectly owned subsidiaries of Franklin Resources, Inc., a publicly traded company listed on the New York Stock Exchange (NYSE:BEN).

ClearBridge Investments, LLC claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. ClearBridge Investments, LLC ("ClearBridge") is a wholly owned indirect subsidiary of Franklin Resources, Inc. ("Franklin"). In July 2020 Legg Mason, Inc., its parent company, was purchased by Franklin. The investment advisory business now known as ClearBridge was registered in September 2005 to facilitate Legg Mason's acquisition of substantially all the equity asset management businesses known as Citigroup Asset Management. These former businesses serve as the foundation of ClearBridge and its claim of GIPS compliance for institutional accounts through predecessor firms, effective as of January 1997. In June 2008, ClearBridge combined this business with its retail business to form a single GIPS firm. As of April 1, 2013, January 1, 2016, May 1, 2020, and January 1, 2024, ClearBridge affiliates, Global Currents Investment Management, LLC, ClearBridge, LLC, ClearBridge Investments Limited (f/k/a RARE Infrastructure Limited), and Franklin Bissett Asset Management have become part of the ClearBridge GIPS firm.

The ClearBridge Global Infrastructure Income Composite generally hold between 30-60 different securities across a number of infrastructure sub-sectors such as gas, electricity, water utilities, toll- roads, airports, rail and communication across developed and developing geographic regions. The portfolio invests in a carefully researched range of higher yielding global listed infrastructure stocks and is total return focused with a Yield target of 5% pa. The portfolio is constructed to maximize the yield but also to achieve some capital gain and a reasonable overall return over the economic cycle. The composite may use options, futures or other derivatives to reduce risk, enhance income or gain exposure to the market for the underlying physical investments. The composite name was updated to ClearBridge from RARE in July 2020. ClearBridge has chosen an absolute return, inflation linked benchmark as the most appropriate primary measure against which to evaluate the long term performance of the Composite. This is an accumulation index comprised of the OECD G7 inflation + 5.5% pa. As a secondary measure of comparison, the S&P Global Infrastructure Index, which is designed to track companies from around the world chosen to represent the listed infrastructure industry, is used. To receive a complete list and description of ClearBridge composites and/or a presentation that adheres to the GIPS standards, please contact us.
